## About Us

Established in 2019, Barach Kahi Foundation is a Kolhapur-based NGO committed to promoting education, healthcare, environmental sustainability, and social welfare. Recognizing the importance of combating climate change, the foundation has launched several initiatives to preserve and protect the environment, including tree plantation drives.

### ■ Mission ■

To create a sustainable future by increasing green cover and raising environmental awareness.

### ■ Vision ■

A world where nature thrives alongside human development.

---

# Overview of Tree Plantation Drive

The tree plantation drive was organized to address issues like deforestation, soil erosion, and urban air pollution. The initiative aimed to create awareness about the importance of trees and engage the community in environmental conservation.

**Date:** [25/05/2022]

**Location:** Kolhapur and nearby rural areas

**Participants:** 200+ volunteers, including students, local residents, and community leaders

## Objectives of the Initiative

- To plant trees and increase green cover in Kolhapur.
- To educate the community on the environmental benefits of tree planting.
- To encourage sustainable practices and environmental stewardship among citizens.

# Key Activities

## ■ Tree Planting ■

- Planted 5,000+ saplings in schools, public parks, roadsides, and barren lands.
- Focused on planting native species like neem, banyan, mango, and jamun to ensure compatibility with the local ecosystem.

## Awareness Campaigns

- Organized 5 workshops on the benefits of afforestation and sustainable practices.
- Distributed 1,000+ pamphlets highlighting the environmental impact of deforestation and the importance of green initiatives.

## Maintenance of Saplings

- Installed protective guards around saplings to safeguard them from animals and harsh weather.
- Created a monitoring system to ensure proper watering and care of the planted trees for six months.

# Community Engagement

- Conducted interactive sessions with local farmers and residents to share techniques for maintaining saplings.
- Encouraged schools and colleges to participate in future plantation drives as part of their curriculum.

## Impact Statistics

- 5,000+ trees planted across 10 locations.
- 200+ volunteers actively participated in the drive.
- Improved soil stability in erosion-prone areas.
- Enhanced public awareness of the environmental and health benefits of tree planting.

## Testimonials

- “Barach Kahi Foundation’s plantation drive has not only beautified our area but also inspired us to take care of our environment.” — Local Resident

## Challenges and Solutions

### ■ Challenges Faced ■

- ❑ Limited availability of native saplings.
- ❑ Difficulty in mobilizing volunteers during initial stages.
- ❑ Maintenance of planted saplings in remote areas.

## ■ Solutions Implemented ■

- ❑ Partnered with local nurseries to source saplings.
- ❑ Launched an awareness campaign to encourage volunteer participation.
- ❑ Assigned responsibility for sapling care to local community groups.

“The workshop on environmental sustainability was an eye-opener. I’m proud to be part of this initiative.” — Volunteer

## Acknowledgments

We extend heartfelt gratitude to:

- Our team and volunteers for their dedication and hard work.
- Local authorities for providing necessary permissions and support.
- Donors and well-wishers for their contributions to the initiative.

## Conclusion

The tree plantation drive was a step toward a greener and more sustainable future. Barach Kahi Foundation remains committed to promoting environmental awareness and conducting similar initiatives in the future.

We firmly believe that small actions today can create a significant impact tomorrow. Together, let us nurture nature and leave a legacy of green for future generations.
